Alumni Newsletter

2nd Edition (September 2016-December 2016)

We are delighted to introduce this second edition of the Alumni newsletter. We intend to make it a regular publication and to use it to keep you in touch with news and developments which relate to the DPS Modern Indian School. Through this platform, you could find a touch of oneness which will create a better bond between and your alma mater.

Messages

President

An Alumni meet is not only a platform to meet each other and their former teachers; it also enables the alumni to familiarize themselves with the developments at the alma mater.

A decade ago, ours was a tiny organization. Today, our students and scholars cover the globe in their search for knowledge and meaning, and their contributions make a difference everywhere. A living institution makes an impact on everything it touches - on the minds, dreams and characters of students and on the world beyond our campus- the communities with which we engage, locally and around the globe.

I would like to remind you that you have a significant role to play in the wider society. I would appreciate to see that you use your position to develop our society positively. You should always endeavour to uphold good morals and act as an inspiration to the society. You are the institution's loyal supporters and role models for current students!

Vice President

It is a great pleasure to note that this year too, our alumni meet was a great success. It was a perfect night to remember with the delicious food, the backdrop of the school and most importantly the reunion of the students and teachers.

Now it's time for the alumni to pay back to its alma mater, to inculcate a sense of belonging to the alma mater and be a support system to the Institution in executing its vision. You have to help set up the alumni forum to run independently with its own office. Its working can be regulated by a committee you would choose and set rolling an annual meeting in which all those who can come, meet and choose/elect their office bearers.

Further, you can establish an alumni endowment fund for the uplift of the institution in various fields. Thus you can play a large role in determining the future and continued development of the Institution.

Principal

We do not remember days; we remember moments –Cesare Parves

It was gratifying to see the homecoming of alumni from all over the globe in the school grounds at the 3rd alumni meet. As students and teachers met, there were many memories that flooded back, a reliving of the time spent in the past.

We appreciate your efforts wholeheartedly, and are proud of the values you have carried forth from your alma mater. It was a pleasant sight to see alumni from all walks of life discussing their lives, careers and wisdom about the world.

While this gave an opportunity to reminisce and look back, this was also a chance for the alumni to network with and connect with students or volunteer. I urge each alumnus to become a representative and spokesperson in your community for DPS-MIS, Doha. We hope you will visit the alumni page for updates and keep connected. Like branches of a tree, our lives may grow in different directions, yet our roots remain the same!
