

# ALUMNI NEWSLETTER

Vol-6

(January 2018-March 2018)

**Welcome to the Sixth Edition of the Alumni Newsletter of DPS Modern Indian School. For nearly two years, we are aiming to drive the Alumni of DPSMIS towards its Alma Mater to rejuvenate the bond. We all know we live at a moment of information overload, and which is why we are not adding too much of information except the headings and the images. We promise to offer our Alumni all the happenings of the school time to time to fill a dangerous vacuum in the rapidly transitioning world of DPSMIS.**

# Message from the Principal

Schools are exciting places teeming with life wrapped around the hopes and obstacles that each child faces. Yet there are challenges that exist within them, as well as controversies of how to “fix” them.

Despite all challenges, DPS-MIS moves forward with its unique position unchallenged and becoming stronger and stronger with adverse or difficult times. Like other successful schools all around the world we ensure that all students have access to high-quality services and supports enabling them to set and reach high goals for learning. We also create a culture of collaboration and shared responsibility among staff and students and with families and communities, in addition to being safe, welcoming and respectful to all.

“Memories are the treasures that we keep locked deep within the storehouse of our souls, to keep our hearts warm.”

Despite being busy as great achievers and outstanding leaders of different walks of life, DPS-MIS alumni find time to keep green the memories of school and whenever possible come to relive the experience and to add to the treasure of memories sweet.

It is a proud moment for the entire DPS-MIS family on its forward march from success to greater success to announce DPS- 2, which is going to be a reality and the foundation stone will be a laid in the second week of May 2018. On this momentous and historic occasion, we share our gratitude and exuberance with all who are part of this family and all our well-wishers. It is due to your unprecedented support that we move higher and higher achieving milestones and going forward setting higher goals.

Asna Nafees,

Principal  
DPS-Modern Indian School
